

## What is a Positive Energy Generator?

- Ⓢ PEG's are based on the principal of **orgone technology** by Wilhelm Reich
- Ⓢ Orgone energy is also known as chi, ki, prana, life force, is the energy present within all objects. It surrounds us and is within us.

### What does it do?

Reduces the effects of EMF (electromagnetic field) radiation from computers, cell phones, TV's, all electrical appliances and fluorescent lights by transmuting the negative energy into positive energy. EMF is an invisible co-factor in increasing your daily stress levels, compounding your adrenal loads and significantly risking your immune function and your body's natural ability to cope and repair.

### How does it work?

The DOR (negative energy) is attracted into the device by the organic component and then it bounces back and forth between resin and suspended metal particles. Pressure from the resin on crystals within the mix causes an electrical charge, reorganizing the energy in a more a positive, potent and clean way. It is the same principle found in watches and medical devices.

2. Put it under your bed
3. Bury them in your yard
4. Place them on a ley line and especially on the junction of two or more of them
5. Program it for manifestation
6. Use it in conjunction with body work, Reiki, etc
7. Use it as a meditation device

### Meditation Guidelines

Sit quietly in front of one of them or place it in your lap. Look at it and concentrate. Then mentally say to yourself:

"I am now breathing the healing energy of the PEG into every cell of my body."

Take a deep breath and visualize a golden spiral of energy coming out of the top of the PEG and entering into each of your nostrils. See this golden energy filling your lungs - invigorating, energizing, recharging, renewing, and revitalizing every cell and organ in you body.

Take 7 deep inhalations and stop.

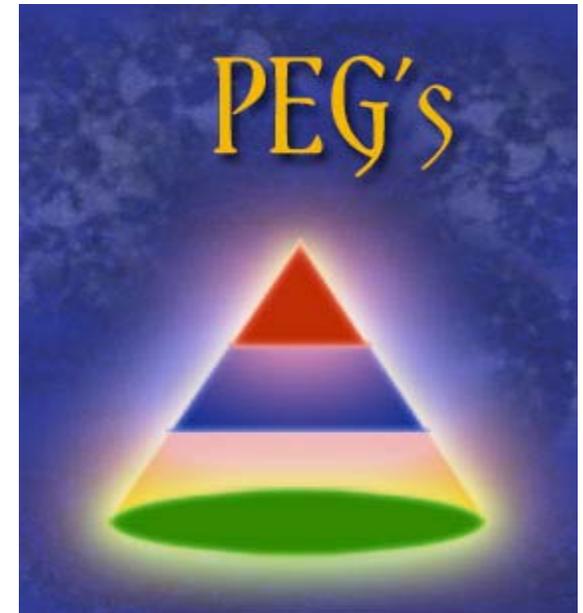

**By placing PEG's in strategic locations your home, neighbourhood and city, you'll contribute to re-establish a positive energy balance, heal the earth, clean the atmosphere and create better living conditions for all to enjoy.**
